INTERIOR DOORS | PARTITIONS

ALUCO[™]
Steel Look Collection

SINGLE & DOUBLE DOOR

KEY FEATURES

1. POWDER COATED SOLID ALUMINIUM EXTRUSION WITH NO THERMAL BREAK

All Aluco interior doors and screens are extruded from solid aluminium extrusion with no thermal break to provide strength, rigidity. Powder coat finish to negate the need for on-going maintenance.

2. FLUSH 110MM WIDE LOCK BODY

The lock-body housing is 110mm wide with Flush design to give a traditional appearance and enhance lock housing feature.

3. CIRCULAR BACK-PLATE ESCUTCHEON HANDLE RANGES

Handle range offers circular back-plate with separate escutcheon for Bathroom locks. Available in a range of finishes

4. DEEP BOTTOM RAIL

150mm high deep bottom rail. Suites perfectly in frame and sash negating need for separate infill panel.

SINGLE & DOUBLE DOOR

KEY FEATURES

5. SLIM 37MM TRANSOM

Ultra Slim 37mm transom, provides strength whilst maximising natural light and glass area. 37mm Astragal Bar to match sightlines in any side-panels.

6. FLUSH BOTTOM DOOR SASH WITH DOUBLE WOOL-PILE SEAL

Flush bottom opening sash threshold with double woolpile seal. Neat clean finish to bottom of door with option to have draft proofing seal across bottom of door.

7. 4 – 7mm TOUGHENED GLASS

4mm clear toughened glass as standard with ability to choose laminate, all finished with square shaped bead. Option to have Satinova or Reeded obscure glass designs . Doors and screens can have single or multiple glass types in each product.

8. LOCK WITH ONE PIECE KEEP

Lock with adjustable tension, dust pocket tidy and one piece keep. 65mm backset wide handle to escutcheon for easier operation and clearance.

SINGLE & DOUBLE DOOR

KEY FEATURES

9. MINIMUM 4 No SLIM KNUCKLE HINGES

Minimum number of 4 slim knuckle hinges, always traditionally fitted with 2 hinges at the top for greater strength

10. Q-LON PERIMETER DOOR SEAL

High performing Q-lon perimeter door seal with its foam core provides 99% memory recovery.

11. ALL CORNER JOINTS GLUED AND CRIMPED

All corner joints are glued, double cleated with chevron fitted before being crimped to produce a strong aligned corner joint.

ADDITIONAL FEATURES

- Side-panels and Fixed lights do not require a dummy sash for 37mm Transom to line through reducing glass sightline to 33mm.
- New slim 5mm coupler reducing coupling sightline by 65%
- Top-lights can be made as an integral part of doors.

SLIDING DOOR

KEY FEATURES

1. POWDER COATED SOLID ALUMINIUM EXTRUSION WITH NO THERMAL BREAK

All Aluco interior sliding doors and are extruded from our unique solid aluminium profiles with no thermal break to provide strength and rigidity. Powder coat finish to negate the need for on-going maintenance.

2 FLUSH 110MM WIDE LOCK BODY

The lock-body housing is 110mm wide with Flush design to give a traditional appearance and enhance lock housing feature.

3 FLUSH RECESSED HANDLE RANGE

Handle range includes flush recessed for easy operation. Available in a range of finishes.

4 DEEP BOTTOM RAIL

One piece 150mm high deep bottom rail. Suites perfectly in frame and sash negating need for separate infill panel. (optional).

INTERIOR DOOR HANDING

Determining your new door handing
Face the door so that the new door opens away from you, into the room you are facing.

Using the images on the right, determine the correct handing, handing is based on the side of the door that the hinges are located.

- Instruction sheets available for:

INTERIOR

SCREENS & PARTITIONS

Aluco interior screens and partitions are the same core components as the doors but are manufactured with slim outer-frame, uses the standard 37mm transoms and is also available with ultra-slim 20mm Astragal bars which can accommodate various style choices.

Clear and obscure glass designs are available.

INTERIOR

DOUBLE DOORS

Aluco interior double doors have the same features as the single door. The door meeting stile is a one-piece design for added strength and is provided with a range of finger-bolts available in a range of lengths for easier operation and reach.
